PROFESSIONAL SUMMARY

Results-driven Technical Lead with 12+ years of experience in front-end and full-stack development, specializing in HTML5, CSS3, JavaScript, TypeScript, React, Angular, and Node.js. Adept at leading cross-functional teams, collaborating with stakeholders, and delivering scalable, high-performance web applications. Strong background in cloud platforms (Azure, AWS), web performance optimization, and eCommerce solutions. Passionate about mentoring teams, ensuring code quality, and implementing Agile development methodologies to drive business success.

SKILLS

- Front-End Development: HTML5, CSS3, JavaScript, TypeScript, React, Angular, Vue.js, Next.js

- UI/UX Design: Responsive Web Design, Cross-Browser Compatibility, Bootstrap, Tailwind CSS

- Back-End Development: .NET Core, Node.js, Apollo GraphQL, TypeORM

- Cloud & DevOps: Azure, AWS

- Messaging & Streaming: Kafka (Confluent Kafka)

- Database & API Integration: RESTful APIs, GraphQL

- Version Control: Git, GitHub

- eCommerce & CMS: WordPress, OpenCart, Magento

- Agile Development: Scrum, Kanban

- Data Import & Integration Tools: Flatfile

- Up to date Knowledge with the latest industry trends in UI design and usability

Tech Lead: Centific (Formerly as Pactera EDGE)   **Oct 2021 – Present**

Project: Mastery Logistics Systems

Team Size: 12

Technologies: React, .Nestjs, Azure Cosmos DB, Apollo GraphQL, Flatfile

A cloud-based Transportation Management System (TMS) designed to streamline logistics operations for large shippers, carriers, and logistics service providers. Contributed to the development of a scalable front-end architecture, optimized data import flows using Flatfile, and ensured seamless integration with Azure services and GraphQL APIs.

Roles and Responsibilities

Front-End Development & Leadership:

- Designed and developed user-friendly, responsive web interfaces using HTML5, CSS3, JavaScript, and React.
- Led a team of 8+ developers, ensuring smooth project execution and high-quality UI/UX solutions.
- Conducted usability testing and research, refining designs based on user insights.
- Collaborated with designers to transform wireframes into pixel-perfect web applications.

Team Collaboration & Project Execution:

- Partnered with back-end engineers to integrate front-end code with server-side logic.
- Conducted code reviews, performance audits, and debugging sessions, ensuring high-quality, maintainable code.
- Ensured cross-browser compatibility and mobile responsiveness across platforms.
- Led Agile sprints, streamlining workflows and boosting development efficiency.

Lead Software Engineer: Persistent Systems   **Sep 2018 – Oct 2021**

Project: WDM Access Tool

Team Size: 8

Technologies: HTML5, CSS3, Bootstrap, Vue.js

Built a centralized data access platform known as Wholesale Data Mart (WDM) within the Wells Fargo data ecosystem. The platform serves as a strategic data repository with historical and reference data layers. Worked on UI enhancements, data visualization components, and cross-browser compatible pages.

Roles and Responsibilities

- Developed responsive web applications using Angular, HTML, CSS, and JavaScript.
- Conducted usability testing and implemented UI/UX improvements based on user feedback.
- Worked with cross-functional teams to align design, development, and UI implementation.
- Developed and maintained client websites, ensuring scalability and security.
- Integrated front-end frameworks like Bootstrap for improved design and responsiveness.
- Led debugging and performance optimization efforts, enhancing web page efficiency.

Senior UI Developer: Vertiv Software Labs Pvt Ltd   **Feb 2017 – Sep 2018**

Project: Little Caesars Enterprise Admin Portal

Team Size: 15

Technologies: HTML5, CSS3, Bootstrap, jQuery, Highcharts, Kendo UI, Angular

Developed and maintained a suite of admin tools to manage mobile and online ordering applications. Implemented user authentication, access control via Gateway Portal, and created dynamic data visualizations using Highcharts for reporting.

Roles and Responsibilities

- Developed front-end web pages using HTML, CSS, and JavaScript, along with Bootstrap, AngularJS, and Kendo UI.
- Ensured cross-browser compatibility, and debugging issues in Firefox, Chrome, IE, and Opera.
- Implemented page optimization techniques, improving performance and load times.
- Worked in an Agile development environment, collaborating on UI/UX enhancements

UI Developer: Thinkcell learning solutions Pvt Ltd   **Aug 2012 – Jan 2017**

Project: GATEFORUM

Team Size: 8

Technologies: HTML5, CSS3, Bootstrap, JavaScript, jQuery, WordPress

Worked on a comprehensive platform for GATE exam preparation. Developed and maintained various features for the website including course listings, video content integration, test series modules, and responsive design. Also handled custom WordPress theme development and plugin configurations.

Roles and Responsibilities

- Developed and maintained multiple WordPress websites, including custom theme development and plugin integration.
- Built cross-browser-compatible, SEO-friendly web pages using HTML, CSS, JavaScript, and jQuery.
- Conducted front-end debugging and performance optimization.
- Integrated client-side validation using JavaScript and jQuery.

EDUCATION

- MBA – IT from IIBM - Institute of Business Management, Hyderabad. 2011 – 2013

- B. Com from AIITC - All India Institute of Trade & Commerce, Hyderabad. 2008 – 2011

- Intermediate from Govt. Junior College, Sircilla. 2006 – 2008

- SSC from Vignana Vardhini High school, Sircilla. 2005 – 2006
